## Embedded Software Developers

Organization: Robert Bosch AB | Region: Sweden | Location: Lund | Functional Area: Engineering, Software Development | Level: Professionals

**Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology – with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.** Bosch, the world's largest supplier to the automotive industry is establishing a software development center in Lund that will focus on applications for connected devices and mobile solutions, for example infotainment systems in cars, devices for connected cars and components for internet of things. This investment in Lund emphasizes the company's focus to firmly drive the development forward when it comes to connected components for vehicles, household appliances and industrial equipment.

### Your contribution to something big

Right now we are looking to recruit a variety of roles mainly within software development, including:

- ▶ Embedded Software Architect
- ▶ Embedded Software Developer
- ▶ Software Security Developer
- ▶ Junior Software Developer
- ▶ Embedded Software Architect / Developer for Bosch Internet of Things
- ▶ Software Security Engineer for Trusted Execution Environment
- ▶ Software Architect for Automotive Infotainment Systems

### What distinguishes you

At Bosch we look at Diversity in Gender, Generation, Internationalities and Culture as our Advantage. Mixed teams are more successful because they utilize the po-tential offered by different perspectives and solution strategies. We therefore promote mixed teams at all levels and draw on the entire talent pool. We take your career seriously and offer the possibility to grow with us and we always look to achieve the best results and learn something every day.

### Your future job location offers you

Flexible worktime options, benefits and services, medical services, employee discounts, various sports and health opportunities, on site parking, catering facilities, access to local public transport, room for creativity, urban infrastructures, rural surroundings.

### Make it happen.
